Certified Electronics Technician

Laura García

RF Systems Engineer

SUMMARY

RF Systems Engineer with hands-on experience in C, C++ and RF. Strong on debugging, test rigs and documentation from prototype to production.

EXPERIENCE

- Working RF Systems Engineer May 2014 to Current Lantern Retail Qualification · Multidisciplinary background: RF hardware designs, manufacturing operations and data analyst.
- Delivered production work using C and C++, with tests, documentation and a clean handover.
- Partnered with product, design and operations on scoping, delivery and post-release support.
- Improved team standards through code review, runbooks and incident follow-ups.

EDUCATION

MSc Electrical Engineering — Meridia Institute of Technology · 2012 – 2014
