QA Automation Engineer

Remote (EU) · Remote · Senior · 4+ years

About the role

Build automation that shortens release qualification and catches the regressions that matter.

What you will do

- Own the day-to-day work of a qa automation engineer on a small, product-focused team.
- Partner with product, design and security on scoped, measurable outcomes.
- Improve reliability, documentation and the team's engineering standards.
- Mentor peers and contribute to hiring and onboarding.

Must have

- Playwright or Selenium
- test automation
- API testing
- CI/CD
- test design

Nice to have

- TypeScript
- performance testing
- accessibility
- contract testing

What we offer

A fictional demo company, a real problem, and a team that reviews its own work. Hybrid/remote flexibility, learning budget, and a calm on-call rotation.

Synthetic job description — company and salary are fictional.
