Quartz River

Database Administrator

London, UK · Hybrid · Senior · 6+ years

About the role

Keep production databases fast, available and recoverable. Own tuning, migrations and the runbooks.

What you will do

- Own the day-to-day work of a database administrator on a small, product-focused team.
- Partner with product, design and security on scoped, measurable outcomes.
- Improve reliability, documentation and the team's engineering standards.
- Mentor peers and contribute to hiring and onboarding.

Must have

- PostgreSQL or SQL Server
- performance tuning
- backup/recovery
- replication
- SQL

Nice to have

- Oracle
- partitioning
- Ansible
- cloud databases
- observability

What we offer

A fictional demo company, a real problem, and a team that reviews its own work. Hybrid/remote flexibility, learning budget, and a calm on-call rotation.

Synthetic job description — company and salary are fictional.
