What you will do

- Own the day-to-day work of a engineering manager on a small, product-focused team.
- Partner with product, design and security on scoped, measurable outcomes.
- Improve reliability, documentation and the team's engineering standards.
- Mentor peers and contribute to hiring and onboarding.

Must have

- people management
- delivery
- backend or platform
- hiring
- incident management

Nice to have

- distributed systems
- OKRs
- coaching
- architecture

What we offer

A fictional demo company, a real problem, and a team that reviews its own work. Hybrid/remote flexibility, learning budget, and a calm on-call rotation.

Synthetic job description — company and salary are fictional.
