Umbra Shield

Security Analyst

Dubai, UAE · On-site · Mid · 3+ years

About the role

Monitor, triage and contain security incidents across cloud and endpoint telemetry. Write detections that survive real traffic.

What you will do

- Own the day-to-day work of a security analyst on a small, product-focused team.
- Partner with product, design and security on scoped, measurable outcomes.
- Improve reliability, documentation and the team's engineering standards.
- Mentor peers and contribute to hiring and onboarding.

Must have

- SIEM
- incident response
- MITRE ATT&CK
- EDR
- security operations

Nice to have

- Python
- Splunk
- ISO 27001
- threat hunting
- phishing response

What we offer

A fictional demo company, a real problem, and a team that reviews its own work. Hybrid/remote flexibility, learning budget, and a calm on-call rotation.

Synthetic job description — company and salary are fictional.
