Xenon Motion

Embedded / RF Engineer

Munich, Germany · On-site · Senior · 5+ years

About the role

Develop and debug embedded/RF systems from prototype to production, with rigorous test and documentation habits.

What you will do

- Own the day-to-day work of a embedded / rf engineer on a small, product-focused team.
- Partner with product, design and security on scoped, measurable outcomes.
- Improve reliability, documentation and the team's engineering standards.
- Mentor peers and contribute to hiring and onboarding.

Must have

- C/C++
- embedded systems
- RF or electronics
- debugging
- testing

Nice to have

- RTOS
- ARM
- PCB
- MATLAB
- safety

What we offer

A fictional demo company, a real problem, and a team that reviews its own work. Hybrid/remote flexibility, learning budget, and a calm on-call rotation.

Synthetic job description — company and salary are fictional.
